# Action Plan

## PP5 Government of Aragon

---

---

## ***Action 1. Library of Things.***

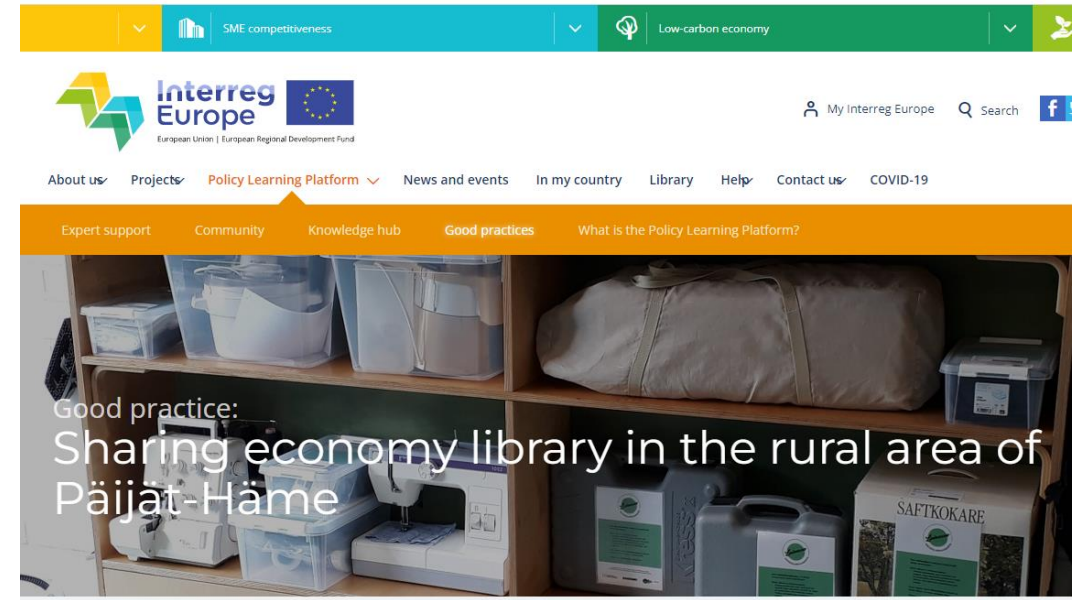

**Developed by a local entity (municipality), funded by Government of Aragon**

## **Action 2. Citizen involvement in the Circular Economy, Prevention and Waste Management Plan (GIRA Plan 2022-2030)**

---

These common spaces lead to collaborative economy models, that allow:

- Waste and environmental impact reductions. A WAY TO THE CIRCULAR ECONOMY
- Community social cohesion and human capital benefits

### EXPECTED IMPACTS:

- Increasing the awareness
- Reduction of waste
- Reduction of the demand of manufactured goods, products, devices...
- Reduction in Greenhouse Gases followed by reducing the manufacture (of goods, products, devices) emissions and extending the useful life of the products (through repair and reuse)

### IDENTIFIED RISKS:

- The lack of interest by local authorities
- The challenge of ensuring the quality and correct use and maintenance of the goods, products, devices over time.
- Donations / purchases ? of the goods, products, devices... and the replacement of items that can no longer maintain their functionality
- The lack of fidelity of the citizens.

Increasing citizens' participation in the elaboration, implementation and evaluation of the Regional (Aragon) Circular Economy and Waste Management Plan GIRA 2022-2030

- Citizen participation workshops, involving all stakeholders from the very beginning of the planning process
- The governance of GIRA Plan

**AGENTS INVOLVED:**

- **General Directorate of Climate Change and Environmental Education of the Government of Aragon**
- **General Directorate of Open Government and Social Innovation**
  
- **GIRA Plan Monitoring Commission**
- **Representative entities of Aragonese citizenship**

	Aug 2022	Sep 2022	Oct 2022	Nov 2022	Dec 2022	Jan 2023	Feb 2023	Mar 2023	Apr 2023	May 2023	Jun 2023	Jul 2023
Participatory Workshops												
Inclusion of participatory workshop GIRA 2022-2030												
Governance and participation elaboration												
Plan GIRA 2022-2030 Approval												

### EXPECTED IMPACTS:

The incorporation of participation criteria, both in the preparation and in the execution of the GIRA 2022-2030 Plan, will allow citizens to know, value and assume as their own the principles of the circular economy and waste management in Aragon.

### IDENTIFIED RISKS:

- A possible low participation of citizens, or a non-representative participation of Aragonese society as a whole in the participatory workshops for the preparation of the content of the GIRA 2022-2030 Plan.
- Once the GIRA 2022-2030 Plan has been approved, the implementation of those actions, for which the participation of citizens or social agents has been planned, also runs the risk of not being executed due to coordination problems between administrations, lack of interest of the citizens themselves, etc.

**Thank you ;)**
