Foro de Transparencia y Escucha Activa Gobierno de Aragón-Entidades locales

***(an space for active listening
between Government of Aragon
and municipalities)***

1. WHAT IS IT?

Open and collaborative space for the exchange of experiences and communication and dissemination of knowledge and practices between the Government of Aragon and local entities (municipalities, local authorities) around the **circular economy**, the prevention and management of **household waste**.

Given the distribution of competences, powers, responsibilities in the Spanish State, it is necessary to have effective cooperation, not only at political-administrative level, but also among technicians.

- **Distribution list**
- **Web site**
- **Face-to-face meetings**
- **Training**

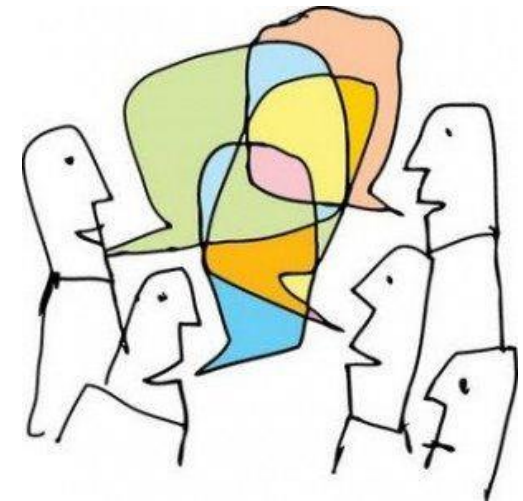

2. WHAT ARE THEY CONTRIBUTING TO?

An **informal network** has been created between the people responsible for waste management in local entities and the Government of Aragon.

The exchange (knowledge, concerns, solutions...) between the agents involved contributes to better performance of daily work.

Provide a meeting space in which:

- Share **good practices**
- **discuss experiences**
- establish **common criteria** for action

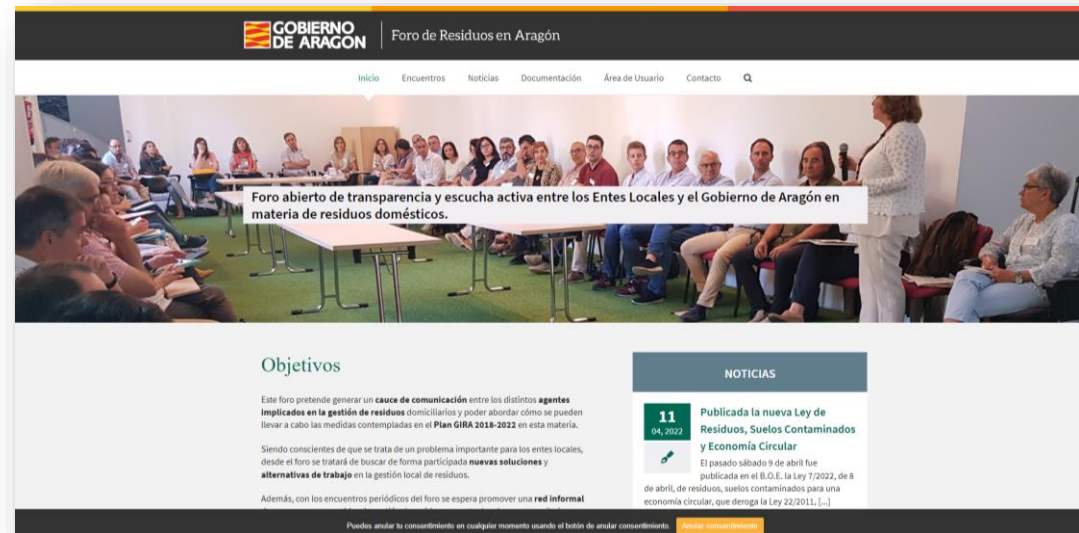

3. HOW?

www.fororesiduosaragon.org

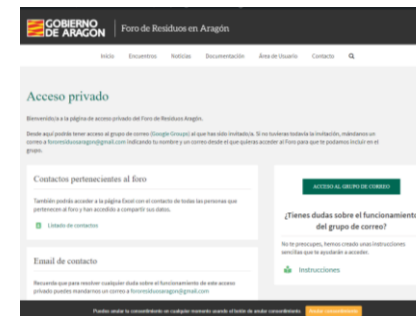

News

- Circular economy
- Regulations
- Projects
- Webinars
- Etc.

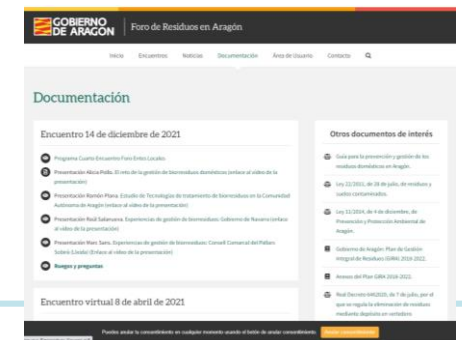

Private area

- Contact lists
- Distribution lists
